

NOTE: Maps depicting proposed property withdrawal/acquisition boundaries in this Draft EIS show the maximum extent; if any portion of a WDZ or SDZ, or non-live fire training area passes through a known property parcel, the entire parcel is shown for potential withdrawal/acquisition and included in acreage calculations. However, once an alternative is chosen for implementation, the Navy will strive to minimize the actual withdrawal/acquisition acreage with a goal to track the actual boundary of the WDZ/SDZ and non-live fire training area while considering terrain features and individual parcel characteristics. The Final EIS will contain more refined boundary locations and acreage figures.

Fallon Range Training Complex Modernization under Alternative 3

• Proposed Electronic Warfare Training Site

— Paiute Pipeline

Existing Withdrawal

■ Closed to Public

■ Open to Public

■ Open to the Public - Proposed Closed to the Public

Proposed Withdrawal from BLM

■ Closed to Public
