NOTE: Maps depicting proposed property withdrawal/acquisition boundaries in this Draft EIS show the maximum extent; if any portion of a WDZ or SDZ, or non-live fire training area passes through a known property parcel, the entire parcel is shown for potential withdrawal/acquisition and included in acreage calculations. However, once an alternative is chosen for implementation, the Navy will strive to minimize the actual withdrawal/acquisition acreage with a goal to track the actual boundary of the WDZ/SDZ and non-live fire training area while considering terrain features and individual parcel characteristics. The Final EIS will contain more refined boundary locations and acreage figures.
