

## Public Comment Period Extended for the Fallon Range Training Complex Modernization Environmental Impact Statement Scoping Process

To allow for additional public input, the U.S. Navy has extended the public comment period for the Fallon Range Training Complex Modernization Environmental Impact Statement (EIS). Public comments may now be submitted until **Dec. 12, 2016**, for consideration in the Draft EIS.

The Navy is preparing an EIS to assess the potential environmental impacts of modernizing the Fallon Range Training Complex (located near Fallon, Nevada).

Modernization would include: 1) renewal of the Navy's current public land withdrawal, 2) the expansion of land ranges through the additional withdrawal of public lands and the acquisition of non-federal land, and 3) airspace modifications.

The proposed modernization would provide the realistic training capabilities needed to meet changing aviation and ground training requirements, while maintaining and enhancing the safety and security of local communities.

### **Public Involvement**

The Navy requests public input in identifying the scope of environmental issues and viable alternatives to be considered in the EIS. Comments will be accepted online at the website address below, or by mail to:

Naval Facilities Engineering Command Southwest

Code EV21.AK

1220 Pacific Highway

Building 1, 5th Floor

San Diego, CA 92132

**Comments must be postmarked or received online by Dec. 12, 2016, for consideration in the Draft EIS.**
