

Notice of Availability of the Fallon Range Training Complex Modernization Final Environmental Impact Statement (EIS)

The U.S. Navy prepared a Final EIS to assess the potential environmental impacts of the proposed modernization of the Fallon Range Training Complex. Modernization would include: 1) renewal of the Navy's current public land withdrawal, 2) land range expansion through the additional withdrawal of public lands and the acquisition of non-federal land, 3) airspace expansion and modifications, and 4) upgrades to range infrastructure. The completion of the Final EIS follows years of research, analysis, and public involvement.

Availability of Final EIS

The Final EIS is available to the public beginning Jan. 10, 2020. Regulations provide for a 30-day wait period after the Final EIS is published before the Navy can make any decision as to which if any of the action alternatives analyzed in the EIS would be selected.

You can access the Final EIS at www.FRTCModernization.com or at the following public libraries: Austin, Carson City, Churchill County, Crescent Valley, Downtown Reno, Eureka, Fernley, Gabbs, Mineral County, Pershing County, and Yerington.

Informational Meeting

Tuesday, Jan. 28, 2020
5 to 7 p.m.

Fallon Convention Center
100 Campus Way
Fallon, NV 89406

The Navy will hold an informational meeting following the release of the Final EIS. The meeting will include poster stations staffed by Navy representatives, a presentation starting at 6 p.m., and an opportunity for the public to provide oral comments. This meeting is intended to update the public concerning the Navy's proposal, the analysis in the Final EIS, and planned monitoring and mitigation measures.
