

# BRAVO-17 RANGE AND DIXIE VALLEY TRAINING AREA

The Bravo-17 range is used for air-to-ground munitions delivery, close air support, and live-fire training.

The Dixie Valley Training Area is used for search and rescue, land navigation, tactical ground mobility, convoy escort, and electronic warfare training. It is a non-ordnance training area.

## Dixie Valley Training Area Proposal:

- ▶ Expansion in all directions totaling approximately 279,400 acres
- ▶ Ground training activities would be conducted on existing roads and trails
- ▶ Both new land proposed for withdrawal and the currently withdrawn land would be open to certain land uses, such as recreation or cattle grazing
- ▶ No land closures are proposed for the Dixie Valley Training Area

## Bravo-17 Range Proposal:

- ▶ Range expansion primarily to the south of approximately 178,015 acres
- ▶ Bravo-17 would be closed and restricted from public use

## BRAVO-17 AND DIXIE VALLEY TRAINING AREA PROPOSED EXPANSION
